What Our Sanitizing Station
Uses In Sanitizing Solution

What Their Sanitizing Station
Uses In Sanitizing Solution

SANITIZING STATIONS OR PUMPS THAT OUR COMPETITORS USE VS. OUR SANITIZING STATIONS	Dispense Rate per Pump		Total Pumps per (1) Gallon / 128 oz (3.785 L)	10,000 PUMPS		
	OUNCES	MILLILITERS		Quantity of Sanitizing Solution Used		Average Retail Cost of Sanitizing Solution (Per 1 Gallon / 3.78 Liter)
				Gallons	Liters	
Nozzle With 1/2 oz. (15mL) External Restrictor Ring	0.5 oz	29.75 mL	512	19.53	73.93	\$976.56
Our Sanitizing Station set at 6,000 pumps per gallon	0.021 oz	0.62 mL	6,000	1.67	6.31	\$83.33

***We recommend using gel type sanitizing solution for more consistent results, but liquid type sanitizing solution can be used as well. Our Sanitizing Stations are preset at the factory to dispense between 4,000 and 6,000 pumps per gallon of sanitizing solution, but the dispense rate can easily be changed by the customer.
